# HOW IT WORKS

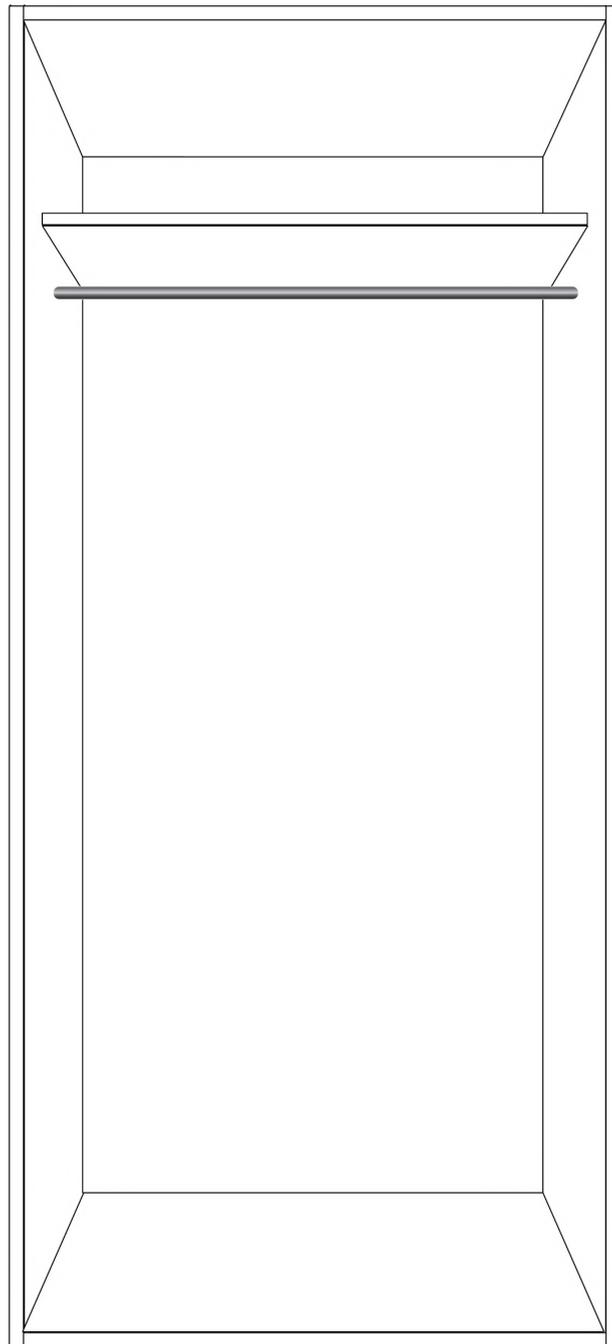

When designing your new fitted wardrobe, you can simply select from our range of pre-designed modules and accessories.

Create your perfect combination and then just request a bespoke quote from us.

Remember: We can make any individual module in any size you like... they don't have to be even in width.

6 shelves

# ACCESSORIES

You can upgrade your wardrobe with any of the accessories we offer.

## Pull-Out Mirror

180° pivot

Installed depth of 456mm

Full extension depth of 728mm (before pivot)

Mirror height: 1155mm

Mirror width: 304mm

The mirror is side-mounted into the wardrobe unit with just four screws and fixes onto either side of the cabinet.

Magnetic strip avoids unintentional opening.

## LED Lighting

Motion-activated rechargeable LED light

Light will activate when motion is detected within 8cm of the sensor. The light stays on for 30 seconds.

Attaches to top of cabinet or underside of shelf with 2 screws

**Battery Life:** 6 hrs (approx 700 activations)

**Charging Time:** 4 hrs

**Charge Connection:** USB

## **Pull-Out Shoe Rack**

Adjustable width, from 564 to 1000mm

Installed depth of 467mm

Extends out up to 448mm

The rack is side-mounted into the wardrobe unit with screw fixings and is made from silver epoxy coated steel.

## **Pull-Out Trouser Rack**

WIDTH: 351mm | HEIGHT: 138mm | DEPTH: 455mm

Extends out up to 448mm

The trouser rack can hold up to 11 pairs of trousers (5KG total). It is mounted onto the underside of a shelf above and made from silver epoxy coated steel.

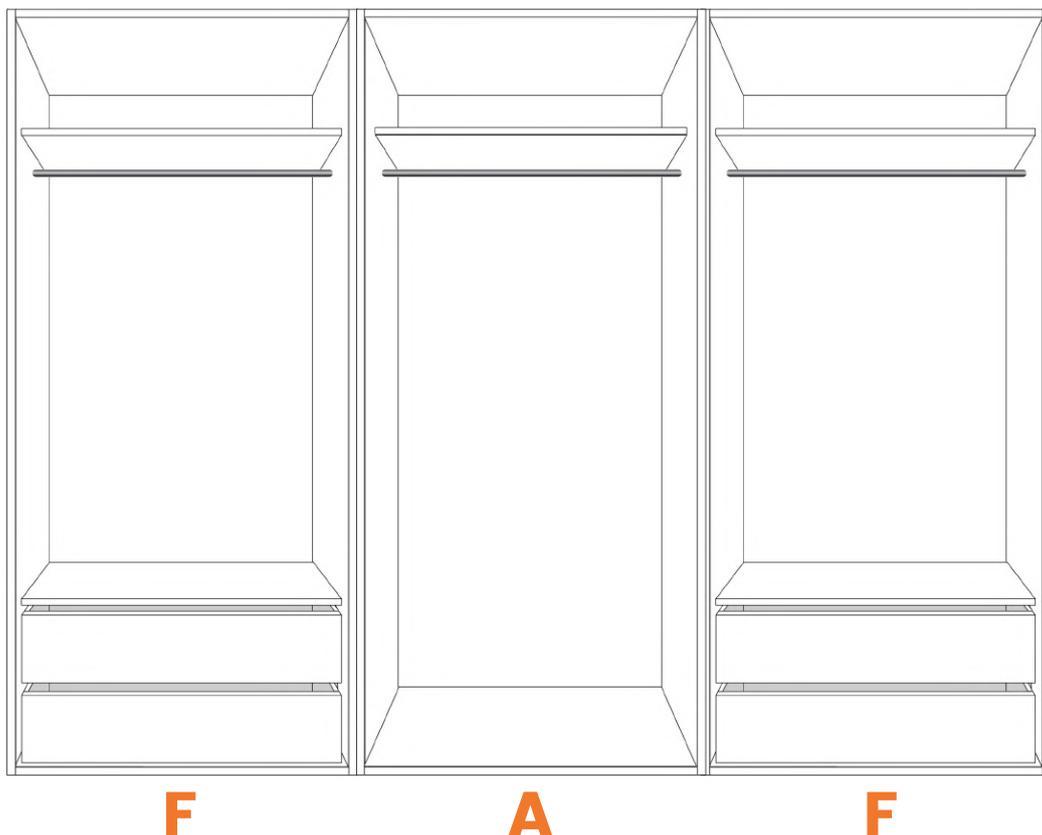

# YOUR WARDROBE YOUR WAY. YOUR HOME.

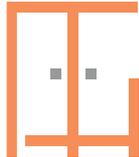

Choose from any combination of modules to build your dream wardrobe. Each module can be built to your specific measurements.

**It couldn't be simpler.**
