

SLIDING DOOR WARDROBES BROCHURE

ONLINE Bedrooms

AS FEATURED ON:

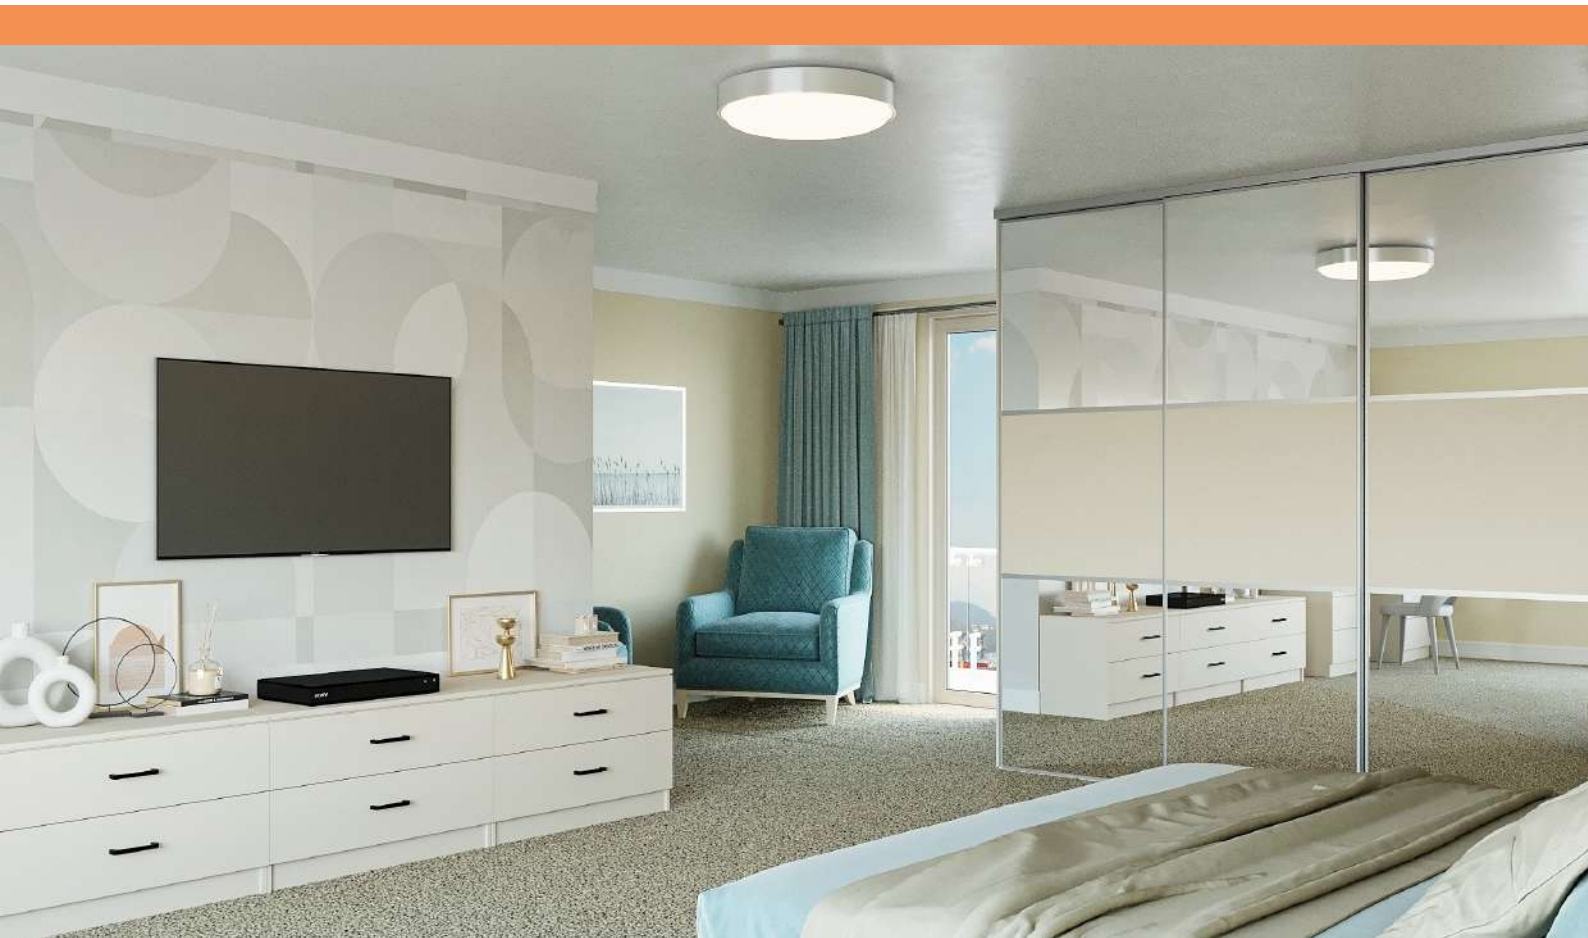

OUR DIY SLIDING DOOR FITTED WARDROBES

Nobody likes a long, difficult to read brochure with too much information in it, so we've kept it super simple, just like our products. Here's the basics:

YOU MEASURE YOUR SPACE
WE BUILD YOUR WARDROBES
YOU INSTALL THEM YOURSELF
YOU SAVE THOUSANDS

MADE TO MEASURE • FREE 3D DESIGN • 11 INTERNAL OPTIONS
DELIVERED IN JUST 3-4 WEEKS • 15 YEAR GUARANTEE

We've been building bespoke, made to measure furniture since 2009 at our 25,000 sq. ft factory on the edge of Sherwood Forest, Nottinghamshire.

We recognised that there was an opening in the market for people who want contemporary fitted wardrobes but didn't want the hassle of dodgy discounts (70% off... really?!) and greedy companies charging over-the-odds for their furniture and services, like sending round a salesperson or a measuring & fitting team.

We create fantastic wardrobes that are easy to fit for those with some DIY skills. All you'll need is a screwdriver, a drill and a saw (if you have side scribe panels). A bit of graft and you'll save £££.

WHY WE'RE DIFFERENT

Many sliding door wardrobe companies sell you some doors, then some cheap, lightweight poles and shelves to stick to your walls.

We supply full, solid-backed 18mm-thick MFC cabinets. They're strong, they look fantastic and your clothing is protected from cold, potentially damp walls.

WOW, TELL ME MORE... WHAT ARE THEY MADE OF?

Our wardrobes and other bedroom furniture are precision-built using our state-of-the-art machinery at our factory, quality inspected by our team and then boxed ready for shipping. It's really clever stuff.

Unlike some companies, with us - as standard - you get...

Soft-close doors and drawers
No banging and crashing. It's ungainly.

Powder-coated satin silver frames
Easier to get your stuff in and out.

Adjustable cabinet legs
Get everything just how you want it.

18mm MFC panels, all round*
Absolutely no flimsy, thin nonsense here.

Full internal cabinet backs & sides
Some companies only give you a frame!

*Doors, sides, top and base. Drawers are 16mm.

WHAT'S THE PROCESS?

We try to make it super easy for you to be able to measure, design, order and assemble your fitted wardrobes. Here's what happens, from the start...

1. MEASURE YOUR SPACE

Following our measuring guide, you can accurately measure your space to make sure the quote is correct.

2. CHOOSE INTERNALS & COLOUR

We've got a range of internal options, plus free colour samples.

3. SEND US THE DETAILS

Fill in the logical, easy to use quote form on our website. It only takes a couple of minutes to complete.

4. GET YOUR DESIGN & QUOTE

Your designer will create a visual rendering and send you a quote. They might call if they have further questions.

5. CONFIRM ORDER & PAY

Our prices are very competitive, so we don't discount, haggle or throw false promotions at you like "up to 70% off!"

6. WE BUILD AND DISPATCH

We create your furniture and deliver it within 4 weeks. You'll get an estimated window at the start and an accurate date later on.

7. YOU ASSEMBLE & FIT

Following our instructions, you assemble your furniture or pay a local tradesperson a small fee (£150-250 usually) to do it for you.

OUR DOORS

Because we like to keep things simple, we offer two door styles for our customers; full panel or triple panel.

The triple panel doors can have inner mirrors, outer mirrors or be entirely one flat colour. The full panel doors can be mirrored or in a flat colour.

Triple Panel Doors

Full Panel Doors

Non-mirror panel colours are White, Cashmere or Light Grey

The doors come with powder-coated Satin Silver frames and are soft-close as standard. The tracks and doors are easy to install at home.

All our doors are made-to-measure, and range from 550 to 1200mm wide.

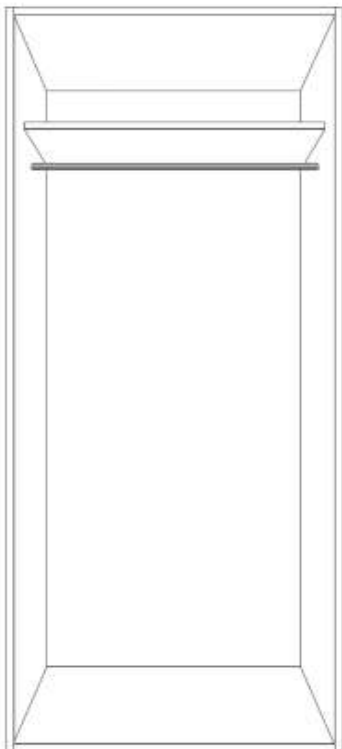

INTERNAL OPTIONS

We offer a range of 11 internal options for each module of your wardrobe. This makes it super easy for you to get a quote... you just tell us which modules you want.

They can all be made in different widths if you want, too!

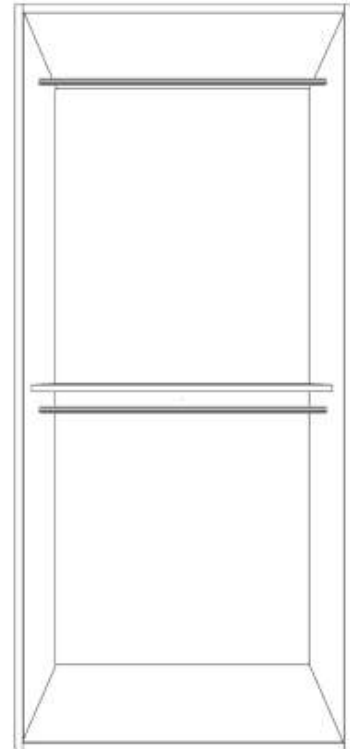

A

Single hanging rail with upper shelf

B

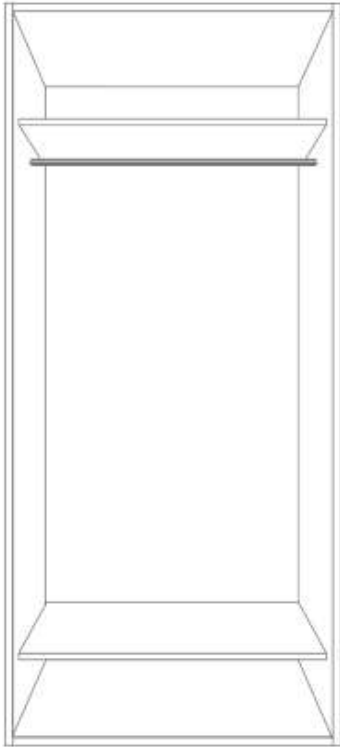

Double hanging rail with middle shelf

[CLICK HERE TO SEE THE INTERNAL
OPTIONS IN MORE DETAIL](#)

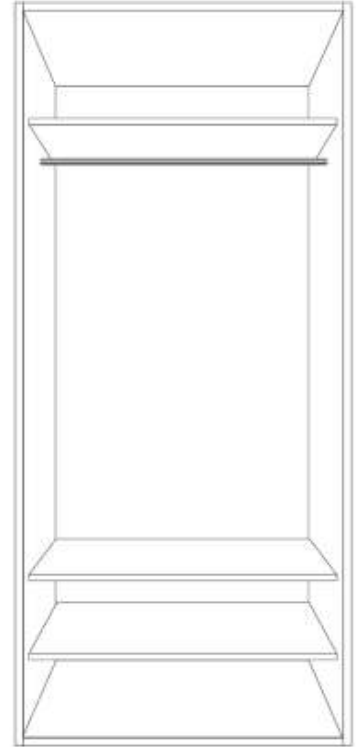

C

Single hanging rail with upper shelf and lower shelf

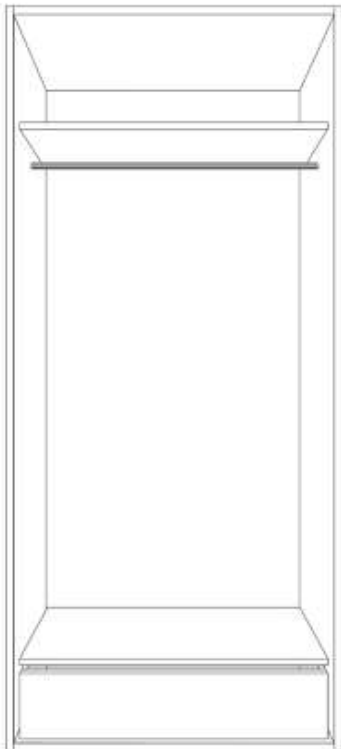

D

Single hanging rail with upper shelf and 2 lower shelves

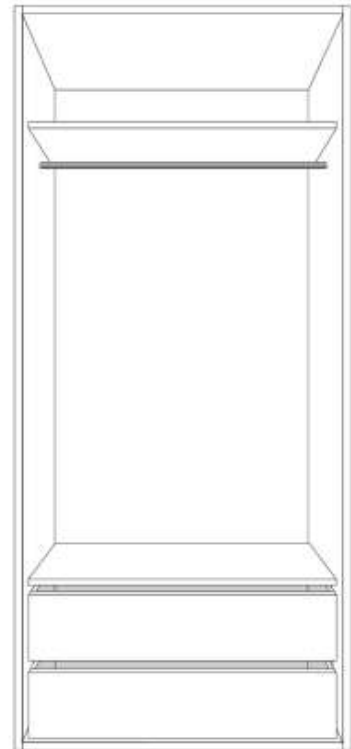

E

Single hanging rail with upper shelf, lower shelf and 1 drawer

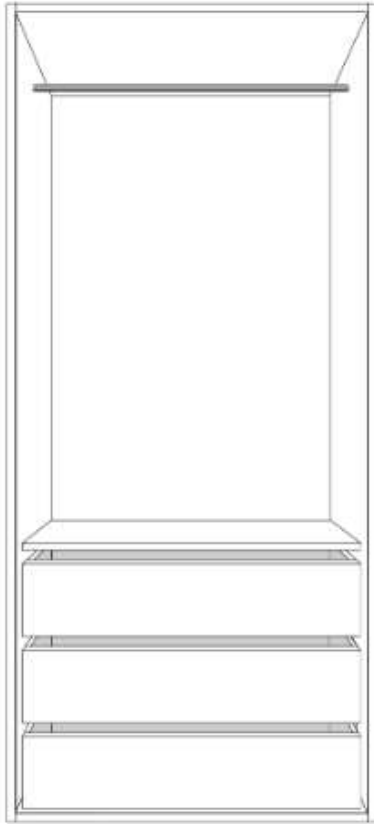

F

Single hanging rail with upper shelf, lower shelf and 2 drawers

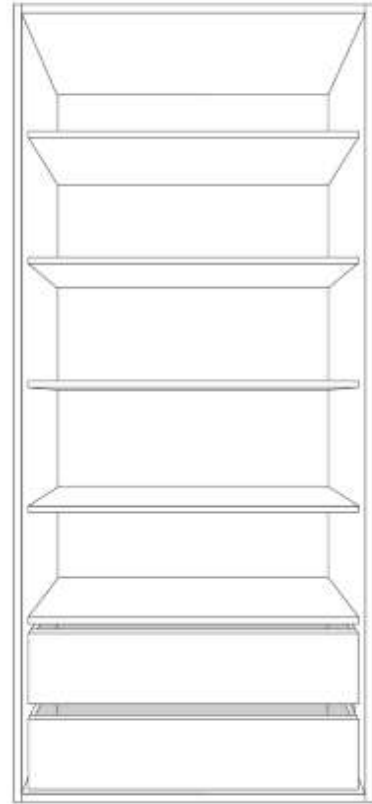

G

Single hanging rail with lower shelf and 3 drawers

H

5 shelves and 2 drawers

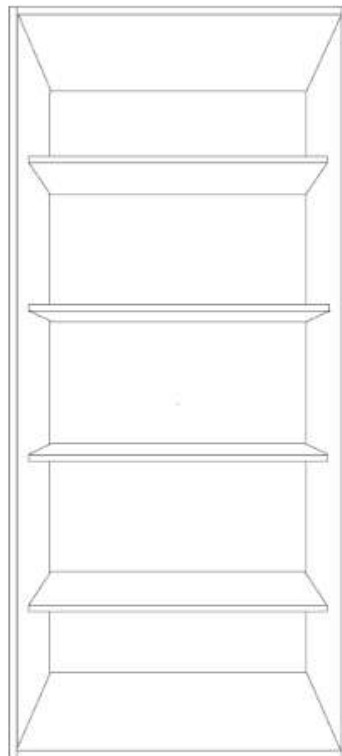

I

5 shelves and 3 drawers

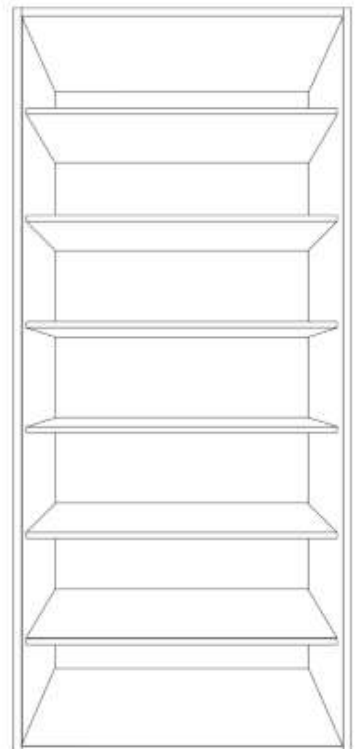

J

4 shelves

K

6 shelves

OUR CABINETS

For your internal wardrobe cabinetry, we offer a range of stunning colours for you to choose from, whether you're looking for a flat colour or a wood effect.

Some colours are also available in gloss - this will only be the doors, the rest of the unit will still be matt with beautiful laser edging that won't peel or delaminate over time.

Want to see for yourself?

You can order samples... the first three are free of charge.

Nebraska Oak (matt only)
Grey Nebraska Oak (matt only)
Light Grey
Dust Grey
White
Denim Blue (matt only)
Cashmere
White Pine (matt only)

This all sounds like it'll be really complicated to build!

Don't worry!

All our furniture comes flat-packed in boxes, ready for you to assemble with our easy-to-follow instructions.

If you're having drawers, they'll come pre-built for you.

Building the cabinets requires only a screwdriver and a drill.

We'll supply you with over-sized side scribe panels and top & bottom plinths.

To ensure a perfect fit with your walls, you'll need to use a jigsaw or circular saw to get them exactly right.

Why don't you provide them perfectly cut?

Generally, people's houses aren't perfectly even and walls aren't perfectly straight, so it'd be impossible to cut them right at our factory.

Don't worry, it's not tricky. We include a guide to follow.

MEASURING UP

To help with measuring and ensure both an accurate quote and perfect-fitting wardrobe, we've created some easy to follow measuring guides.

CHECK THEM OUT!

MEASURING GUIDES**

Bedside Tables

For lamps, phone chargers and loose change

Our bedside tables are available in a range of widths to suit your space and are available with any of the colours & handles in our collection. Just let your designer know which one you want and the dimensions you require.

Kelham

Hawton

Lowdham

Drayton

Dressing Tables

Get ready for the day in style!

Our dressing tables can be made to measure to suit your space and are available in the same colours and with the same handles as our wardrobes. Kneehole drawer upgrades are available, too!

Bridgford

Newark

Linby

Chests of Drawers

Pants, socks & other stuff.

Complete your room with one of our bespoke chests of drawers. Made to measure to suit your space, with soft-closing drawers too.

2 - 5 drawers

Available with 2-5 drawers depending on height, colour matched to suit the rest of your fitted furniture (with matching handles too, of course!)

Our drawers will arrive at your home pre-built to save you time and effort, so all you have to do is assemble the cabinet and screw the drawers and runners in!

READY FOR A QUOTE?

Now that you're all measured up, you can request a quote for your fitted wardrobes.

To make life easy, there's four different quote forms here, one for regular fitted wardrobes in straight rooms, one for walls with angles, such as a loft conversion, eave or alcove, one for walls with sloping backs and one for L-Shape wardrobes.

Select the one that best suits you!
