

FITTED WARDROBES

FOR THE TRADE

Fitted Wardrobes, Delivered Nationwide

Manufacturing and supplying quality full-cabinet and face-frame fitted wardrobes to the trade across the UK, from our factory in Nottinghamshire.

Regardless of budget, layout and size, we can cater for almost anything. Re-sell our fitted wardrobes to your customers with a healthy margin and still undercut the national 'full service' retailers considerably.

Utilise our in-house design service... you supply the measurements and the spec and we'll put a design together for you. Alternatively, send your customer to us and we'll design it, then they can order it and have it fitted through you.

We offer a rebate system worth up to 10% back for trade customers.

We offer delivery to site for free for all orders over £1500*

£89 fee when less than £1500

*except Scotland and PL, TQ and TR postcodes which have a fee of £199 flat rate

Trade Rebate System

We do not offer trade discounts. Instead, we offer a rebate system based on value of orders placed over a rolling 6 month period....

£5000 - £6999 gets a rebate of 5% per order

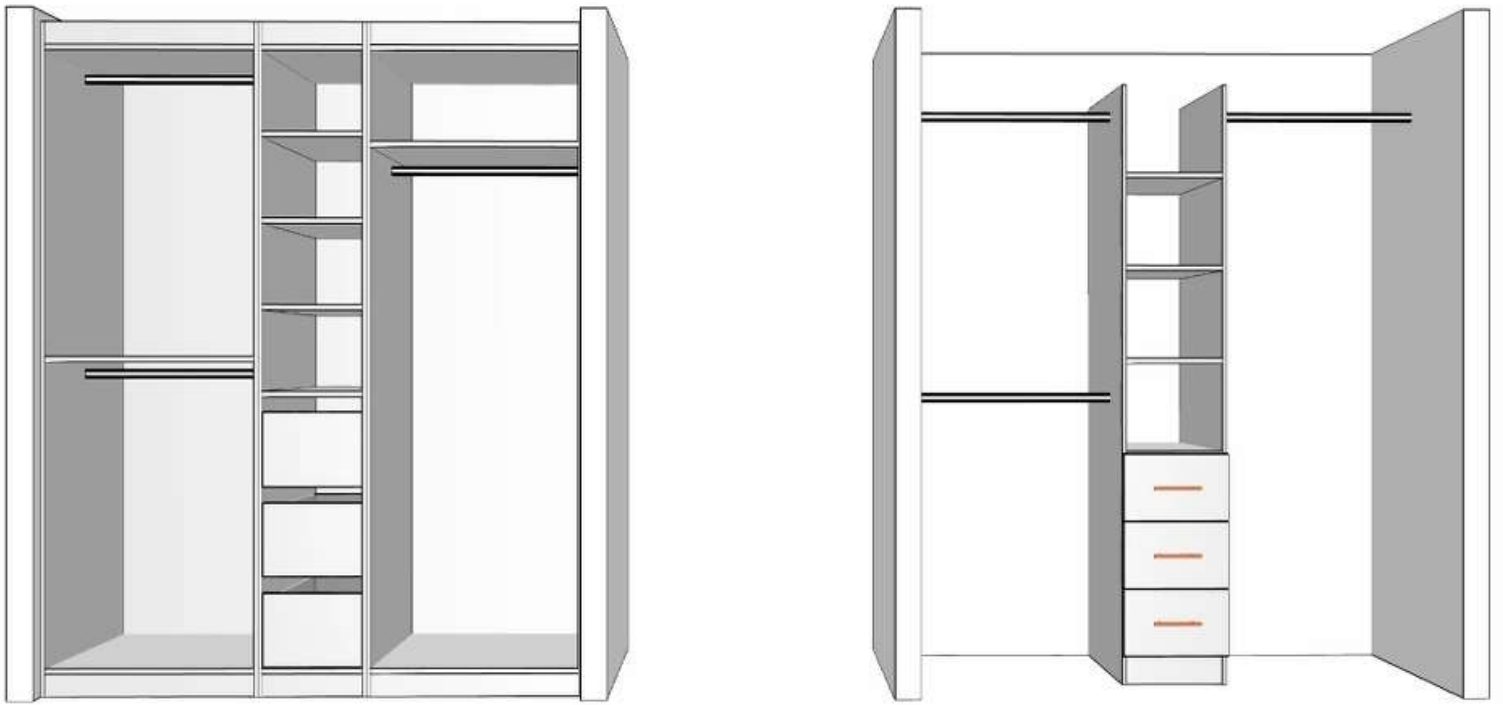

£7000 - £9999 gets a rebate of 7% per order

£10,000+ gets a rebate of 10% per order

If your trade account falls below any threshold in a rolling 6 month period, then your rebate will fall into the banding of the relevant threshold.

Orders are payable in advance, prior to production and delivery.

Full Cabinet v Face Frame

We offer a choice of full cabinet fitted wardrobes or face-frame fitted wardrobes.

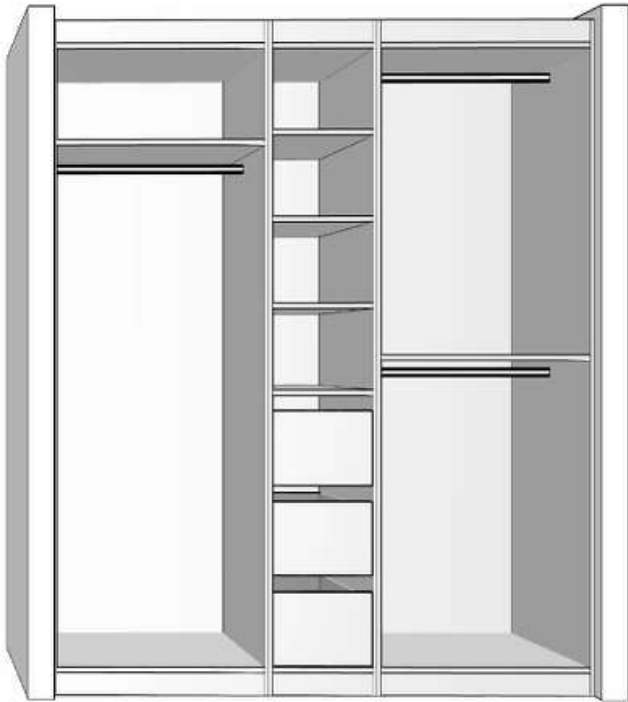

Our 18mm full cabinetry wardrobes have solid tops, bases, backs and sides or basic internals for our face frame wardrobes. Each 'module' of internal options is entirely made to measure for a truly bespoke finish.

Full-cabinet wardrobes come in over 10 cabinet colours & décors. Soft-closing, wide angle doors and soft-closing drawers are included as standard, as is a 15 year cabinetry guarantee and 6-15 year door guarantee.

Around 30% lower in price on average, our face frame wardrobes have a full floor to ceiling, wall to wall frame. We only offer these wardrobes for straight runs & corners (no angles). Behind the doors will be basic internals, with a range of options which can be positioned anywhere during the installation.

Face frame cabinets come in a set colour, but we offer a range of door colours and styles. All doors are soft-close and all drawers are soft-close as standard.

Full Cabinet Wardrobes

Completely made to measure, our full cabinet wardrobes are made from 18mm MFC on all sides, including the backs for a sturdy, high quality piece of furniture. These cabinets come with a 15 year guarantee, more than any other manufacturer or retailer of made to measure wardrobes in the UK!

These wardrobes are available with a range of internal modules, each of which can be custom sized.

Wardrobes are supplied with a choice of doors (modern and traditional options) and handles or knobs. In addition, wardrobes are supplied with plinths and side scribes for a wall-to-wall, floor-to-ceiling look. Some panels need to be trimmed on site when fitting.

All wardrobe cabinets are designed to be built upright, with adjustable legs for achieving a level, straight wardrobe.

We offer a range of layouts, including: wall to wall, L-shape, U-shape, wardrobe with TV space, over-bed and much more. We also offer angles for sloping sides or sloping backs, so we can accommodate almost any requirements.

Face Frame Wardrobes

For those looking for something on a tighter budget but whilst keeping the wall-to-wall and floor-to-ceiling look, we offer our face frame wardrobes which are approximately 30% lower in price than an equivalent full-cabinet wardrobe.

These are box frames on which the doors hang, with simpler internal options (including shelving, drawers and rails to be cut to size on site)

Face frame wardrobes are available as a straight run or as an L shape. Doors are set sizes and the frames come with infill panels and plinths to be cut to size during fitting.

These wardrobes can still achieve the wall-to-wall, floor-to-ceiling look that most customers want from their fitted wardrobes. It's very similar to what the two biggest fitted wardrobe retailers offer, but around a third of the price, on average.
